

PROJECT DEVELOPMENT PHASE

SPRINT – 4

Date	18 November 2022
Team ID	PNT2022TMID33222
Project	Smart Solutions For Railways

Objective:

- To Display the tracking page and ticket reservation page in app using MIT App Inventor
 - ❖ First of all, in the node red flow all the required data is declared as global data.
 - ❖ Using a http in node and http out node these data will be delivered to a site.
 - ❖ A function node which is placed in-between the http in & http out nodes.
 - ❖ In this function node all the global variables are received using the command `global.get()`

- ❖ We mentioned the url as “smartrailway” in the http in node
- ❖ Copy the node red url and make a backslash and type the mentioned url smartrailway.

- ❖ This mentioned url will be delivered to the app using MIT App Inventor.
- ❖ URL : <https://node-red-lynbp-2022-10-10.eu-gb.mybluemix.net/smartrailway>
