Project Development Phase
Sprint – 1

| Date	04 November 2022
Team ID	PNT2022TMID33222
Project Title	Smart Solutions For Railways

Objective:

As a user can register and login to his account in the web app with their unique username and password.
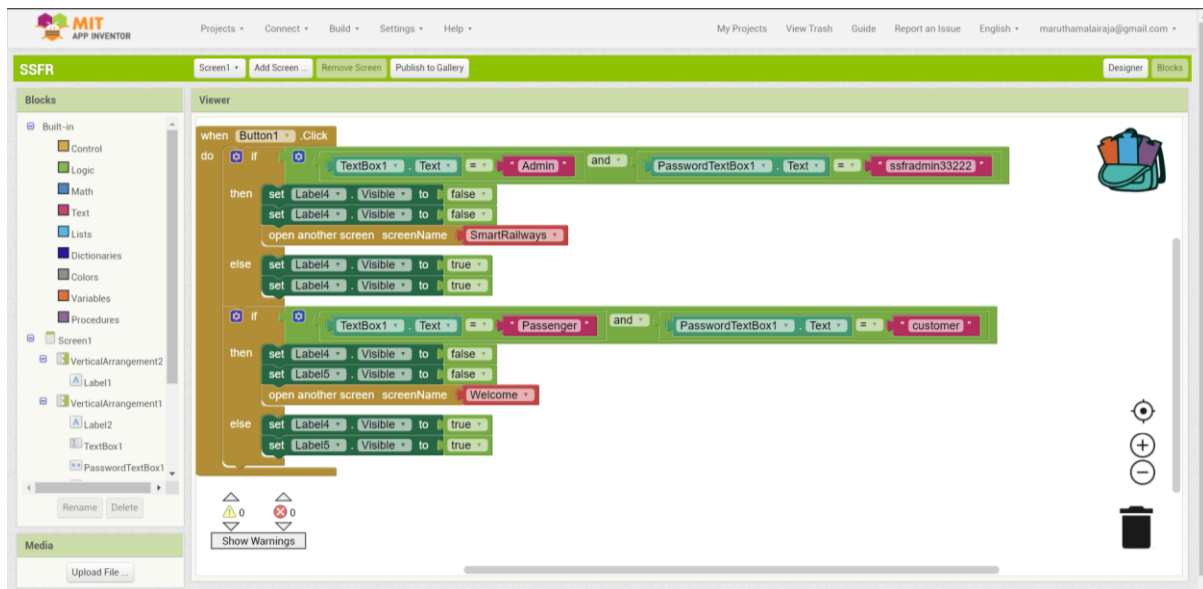

- The web app is developed using MIT APP INVENTOR.
- Here the app is developed with a unique admin login and one unique customer login.
- When the admin log in to this app it is redirected to the admin page
- When the customer log in to this app it redirects to the train booking and tracking page.

MIT APP INVENTOR:

- The Designer tab for the app.

- The blocks tab for the app.

- The Admin can login with the username **"Admin"** and the password **"ssfradmin33222"**.
- The passenger can login with the username **"Passenger"** and the password **"customer"**.
- When the admin or the passenger had entered the wrong ID or password the app shows the message like **"Invalid username or Password"**.

In Next Sprint:

- In next sprint, to provide unique QR for each Ticket will be evaluated.
